

1958 DeSoto Firesweep Convertible

The sleek and dashing body type was new to the Firesweep series this year. Weighing in at 3,850 with a base price of \$3219, this example has the optional push button automatic transmission, power steering, power brakes, push button radio and dual rear antennas. Another of the rare “fin car era” beauties, this “orphan” car was created at the height of Chrysler styling supremacy. Only 700 examples were built of which less than 15 are believed to still exist!

This one owner car was purchased in Nebraska in 1983 in very used original condition. It has since undergone a cosmetic and mechanical restoration and a complete interior restoration.
